

## MAAP-SCI Grade 5 Blueprint

These blueprints correlate to the performance objectives found in the *Mississippi College- and Career-Readiness Standards for Science* beginning with school year 2018-2019.

Content Strand/Disciplinary Core Idea	Number of Total Performance Objectives	Number of Items
<b>Life Science</b>	<b>6</b>	<b>8-10</b>
<i>Ecology and Interdependence</i>	6	
<b>Physical Science</b>	<b>18</b>	<b>19-26</b>
<i>Organization of Matter and Chemical Interactions</i>	12	
<i>Motions, Forces, and Energy</i>	6	
<b>Earth and Space Science</b>	<b>10</b>	<b>10-14</b>
<i>Earth and the Universe</i>	8	
<i>Earth's Resources</i>	2	
<b>TOTAL SCORED ITEMS</b>		<b>40</b>
<b>Field-Test Items</b>		<b>10</b>
<b>TOTAL TEST</b>		<b>50</b>

All science assessments will utilize an embedded field-test design and will consist of Multiple Choice (MC) items and Technology-Enhanced (TE) items which are described below.

Item Type	Points	Description
Multiple Choice (MC)	1	Each has four response options, only one of which is correct; used to assess a variety of skill and content levels; each of these items is worth one point.
Technology-Enhanced (TE)	1 Or 2	Each is designed to elicit evidence of a broad range of student understanding; student interacts with enhanced features of these computer-delivered, <b><i>auto-scorable</i></b> test items to show understanding of skills and concepts; includes the drag-and-drop, hot-spot, number line, data displays, matching interactions, drop-down menus, multiple answer MC, and text entry responses; these items are scored on a 0-1 or 0-2-point scale using item-specific scoring rules.

**Please Note:** The TE items are similar in style to the item format in the MAAP – Math assessments. Science does **not** currently have performance task items.
